## Beyond Banking - Your Health and Wellness are our Priority

As we continue to monitor the novel coronavirus at IBC Bank, we assure you that we are taking proactive steps to ensure your access to uninterrupted banking services. At our branches we have implemented precautionary measures to mitigate the spread of germs. You may also prefer to perform transactions via the motor bank.

It is in situations like these where our technology comes in handy. Using your debit card at the point of sale instead of exchanging cash may serve as a precautionary measure. Furthermore, you can set up your IBC debit card on your mobile wallet for contactless payments using your mobile phone.

Many of our ATMs now take cash and check deposits. Please visit our [ATM locator](#)

on [ibc.com](http://ibc.com) for locations near you. Furthermore, if you wish to avoid crowds, please remember that our mobile banking app can be used to deposit checks using the camera on your smartphone as well as to pay all your bills - without leaving your home. Through the desktop version of MyIBC Bank Online, you can also transfer funds between your accounts - including those at other financial institutions. For more information you can view our Online Banking [demos](#) on [ibc.com](http://ibc.com).

The health and wellness of our customers and employees is of our utmost priority. Our response teams throughout our corporation are meeting regularly to ensure that our business practices are executed with highest precaution and without affecting any of your banking services.

For your convenience we ask you to:

1. Stay posted with up-to-the-minute information on our website at [ibc.com](http://ibc.com) and on our social media channels via [Facebook](#) and [Instagram](#).
2. Access your account from home or office 24 hours a day / 7 days a week using our mobile app or online at [ibc.com](http://ibc.com)
3. For more information on COVID-19, visit the Centers for Disease Control and Prevention [\(CDC\) website](#).

At IBC Bank, We Do More to serve our customers and community and to limit the impact of COVID-19 on our daily operations. This is an incredibly fluid situation; we are adapting as we move along. Safeguarding our customers and employees is of maximum importance to us.
